Seller's acceptance of an Order incorporating this Supply Agreement is limited to acceptance of the express terms of the offer set forth in the Order. Any quotation, acknowledgement or other proposal containing additional or different terms and conditions is rejected unless accepted in writing by the Purchaser. **ADDITIONAL OR DIFFERING TERMS OR CONDITIONS PROPOSED BY SELLER OR INCLUDED IN SELLER'S ACKNOWLEDGMENT HEREOF ARE HEREBY OBJECTED TO BY PURCHASER AND HAVE NO EFFECT UNLESS EXPRESSLY ACCEPTED IN WRITING BY PURCHASER.**

Seller acknowledges and confirms that: (1) it has had an opportunity to carry out a thorough due diligence exercise in relation to the requirements of this Agreement and has asked the Purchaser all the questions it considers to be relevant for the purpose of establishing whether it is able to provide the Goods and Services in accordance with the terms of this Agreement; (2) it has received all information requested by it from the Purchaser to enable it to determine whether it is able to provide the Goods and Services in accordance with the terms of this agreement; (3)

ARTICLE 3 - PAYMENT TERMS.

- (a) **Standard Terms.** Purchaser shall initiate payment for approved invoices within 120 days after the Payment Start Date (the “Net Date”) (subject to “Batched Payments” as described below). Seller agrees to accept the invoice amount discounted as follows: (i) for Direct Procurements, discounted by two and one-half percent (2.5%) in exchange for Purchaser’s initiation of payment on the forty-fifth (45th) day following the Payment Start Date (2.5% 45 net 120); and (ii) for Indirect Procurements, discounted by three and one-half percent (3.5%) in exchange for Purchaser’s initiation of payment on the thirtieth (30th) day following the Payment Start Date (3.5% 30 net 120). The Payment Start Date shall be the latest of (A) the date performance is requested by Purchaser (for example, in a part schedules report or statement of work), (B) the material received date, as identified in Purchaser’s computer system, or (C) the invoice approval date. If the early payment discount date or the Net Date, as applicable, falls on a weekend or a holiday, Purchaser will initiate payment to Seller on the next business day. If Purchaser initiates payment before or after the early payment discount day, the invoice will be discounted on a pro rata basis to reflect each day that payment is accelerated.
- (b) **Batched Payments.** Purchaser may choose to group, on a quarterly basis, all approved invoices that are not paid on their applicable early payment discount dates and initiate payment on the following payment dates, or the next day on which Purchaser and the banks used by Purchaser are open for business (each, a “Batched Payment Date”), which will result in some approved invoices being paid earlier than their Net Date and some paid later than their Net Date:

Invoice Due Dates	Quarterly Batched Payment Date
February 16 - May 15	April 3
May 16 - August 15	July 3
August 16 - November 15	October 3
November 16 - February 15	January 3

- (c) **Invoicing.** Settlement and invoicing must be paperless and in a format acceptable to Purchaser, which may include Web Invoicing, Evaluated Receipt Settlement and Electronic Data Interchange. Seller must provide banking information to establish electronic funds transfer for U.S. suppliers and wire transfer for non-U.S. suppliers. Seller shall invoice Purchaser within ninety (90) days after delivery of Goods or completion of Services; Purchaser shall deem any later invoice invalid.
- (d) **Taxes.** All sums payable under this Agreement shall be exclusive of VAT or other sales tax, which shall (if applicable) be payable by the Purchaser.
- (e) **Set-off.** Purchaser shall be entitled to set off any amount owing from Seller to Purchaser or to any of Purchaser’s Affiliates against any amount payable under this Agreement.
- (f) **Functional Currency.** All payments shall be made in the currency stated on the Purchase Order.

ARTICLE 4 - TRANSPORTATION AND DELIVERY.

- (a) Unless otherwise stated in the Order, the shipping and delivery terms are FCA (named place) Incoterms 2020. In any event, title to Goods shall pass to Purchaser upon delivery. Purchaser insures all Goods for which it accepts risk of loss while such Goods are in transit. Seller shall not declare any insurance value on such Goods shipped via Purchaser’s carrier unless Seller is shipping prepaid at its own expense under paragraph 4(b) below.
- (b) Seller shall release rail or truck shipments at the lowest released valuation permitted in the governing tariff or classification. Purchaser will pay no charges for unauthorized transportation. Any unauthorized shipment that results in excess transportation charges must be fully prepaid by Seller. If Seller does not comply with the stated delivery schedule, Purchaser has the right to require delivery by the fastest way, and Seller shall ship

at its own expense, prepaid. If Seller fails to ship at its own expense when required by this paragraph, Seller shall reimburse Purchaser for the full cost of the shipment.

- (c) Seller's non-U.S. locations involved with manufacture, warehousing, shipment, or delivery to the U.S. agree to use commercial reasonable efforts to comply with "GE Customs-Trade Partnership Against Terrorism (C-TPAT) Supply Chain Security Guidelines for International Suppliers/Shippers" located at https://www.geaviation.com/sites/default/files/C-TPAT_guidelines_intl_suppliers_shippers.pdf, develop and implement security procedures consistent with appropriate C-TPAT, Authorized Economic Operator, or similar program criteria, and provide a copy of said procedures to Purchaser upon request. If Seller is certified by a supply chain security program (for example, C-TPAT Status Verification Interface), it shall provide Purchaser with an authorized point of contact, all applicable and necessary information to comply with the minimum standard of the applicable regulations, and any changes to Seller's certification status. If Seller is not certified by a supply chain security program, then upon request it shall complete Purchaser's supply chain security questionnaire.
- (d) Seller shall notify Purchaser promptly of any known or suspected security breach affecting the Goods (for example, contraband, smuggling, threatening or suspicious activities, or tampered container, trailer, lock, or seal including a seal broken during a customs inspection).
- (e) Upon request, Seller shall label all shipment containers for Goods in accordance with Purchaser's bar code shipping label instructions. Seller shall designate an individual responsible for compliance with said instructions, who shall act as the Seller's contact for issues concerning bar code labels. If Seller uses Purchaser's SCP, Seller shall not print bar code shipping labels more than twenty-four hours prior to shipment.
- (f) Seller shall use Purchaser's designated SCP (for example, ACES or SupplyLine) and shall meet the requirements of that system. Lead times for all Goods and Services shall be established at the time an Order is initially placed, either by being input and approved in the SCP or otherwise agreed in writing. Any change to the established lead time must be mutually agreed and specify the date that the change will take effect. Seller shall deliver the Goods and/or Services on the Due Date. If Purchaser requests that Seller deliver Goods in a time period less than the established lead time, Seller shall use commercially reasonable efforts to meet such delivery requirements, and the remedies set forth in Article 4(g)(ii) and (iii) below shall not apply to the affected deliveries.
- (g) Delivery Delays.
 - i) The Parties agree that time is of the essence. If Seller anticipates any difficulty in meeting the Due Date or any of the other requirements of this Agreement, Seller shall promptly notify Purchaser in writing and upon request, provide Purchaser adequate assurance of performance.
 - ii) If Seller misses a Due Date and does not cure within one (1) week, Purchaser may assess the following as liquidated damages: (A) 2% for delivery between 8-14 days after the Due Date; 4% for deliveries between 15-21 days after the Due Date; 6% for deliveries between 22-30 days after the Due Date; and 10% for deliveries more than 30 days after the Due Date, with such percentages being calculated from the price of the delayed Good/Service; and (B) any amount of liquidated damages Purchaser owes to its customer as a result of Seller's failure to timely deliver the Good/Service ((A) and (B) together, "Delivery Damages"). The Parties agree that such Delivery Damages, if assessed, are the exclusive monetary remedy for the delay period; are a reasonable pre-estimate of the damages Purchaser will suffer because of delay based on circumstances existing at the time of the Order; and are to be assessed as liquidated damages and not as a penalty.
 - iii) For avoidance of doubt, assessment of Delivery Damages does not waive any applicable termination rights, including a partial termination through reduction of requirements share percentages, if applicable. Purchaser's remedies are cumulative and Purchaser shall be entitled to pursue any and all remedies available at law or equity.

ARTICLE 5 - TERMINATION.

- (a) Delay and Default. In the event Seller anticipates any difficulty in complying with a Due Date or any of the other requirements of this Agreement, Seller shall promptly notify Purchaser in writing, and upon request, provide Purchaser adequate assurance of performance. In the event of a delivery delay, non-delivery, or any other default by Seller in meeting its obligations under this Agreement, Purchaser (without prejudice to other

rights it may have in law or in equity) may terminate all or any part of this Agreement without further compensation to Seller, and Purchaser's rights will be (i) in accordance with English law including the Sale of Goods Act 1979, Supply of Goods and Services Act 1982, Sale and Supply of Goods Act 1994, and the Sale and Supply of Goods to Consumers Regulations 2002, where applicable (or if Seller is located in the U.S., in accordance with the New York Uniform Commercial Code), or if Seller is located in Brazil, in accordance with Brazilian law; and (ii) for Services, to procure, upon such terms and from any source or service provider as it shall deem appropriate, services similar to those terminated. In each case, Seller shall continue performance of such Agreement to the extent not terminated and shall be liable to Purchaser for any excess costs for Purchaser's procurement of similar goods or services. Immediately upon termination, Seller shall refund to Purchaser any progress payments for the terminated portion of the Agreement.

- (b) **Termination for Convenience.** Purchaser may terminate all or any part of this Agreement for convenience at any time by giving notice specifying the extent of termination and the effective date. Upon termination, unless otherwise directed by Purchaser, Seller shall immediately: (i) stop work as directed; (ii) place no further subcontracts or orders except as necessary to complete the continued portion of the Agreement; and (iii) terminate all subcontracts to the extent they relate to terminated work. Seller shall submit a final termination settlement to Purchaser in the form prescribed by Purchaser within ninety (90) days from the effective date of the termination. Purchaser shall not be liable for lost or anticipated profits, unabsorbed indirect costs or overhead, or for any sum in excess of the total Agreement price. In the event that Purchaser wrongfully terminates this Agreement under paragraph 5(a), in whole or in part, such termination becomes a termination for convenience under this paragraph 5(b).

ARTICLE 6 - DISPUTE RESOLUTION.

- (a) **Arbitration.** Any dispute arising under or related to this Agreement shall be resolved exclusively as stated in this Article. One or both Parties shall send a written request to the other identifying the dispute. The Parties shall then designate senior managers, who shall meet and use commercially reasonable efforts to resolve the dispute. If the Parties' senior managers do not resolve the dispute within sixty (60) days of said written request, either Party may file an arbitration claim to resolve the dispute. If Purchaser is located in the United Kingdom, the arbitration will be conducted in accordance with the then-current rules of the London Court of International Arbitration, and the seat of the arbitration and hearings shall be in London. If Purchaser is located anywhere else in the European Union, the arbitration will be conducted in accordance with the then-current rules of the International Chamber of Commerce ("ICC"), and the seat of the arbitration and hearings shall be in Geneva, Switzerland. If Purchaser is located in Brazil, the arbitration will be conducted in accordance with the then-current rules of the Brazil-Canada Chamber of Commerce ("Camara de Comércio Brasil Candá"), and the seat of the arbitration and hearings shall be in Sao Paolo. In all other cases, the arbitration will be conducted in accordance with the then-current rules of the ICC, and the seat of the arbitrations and hearings shall be in Paris, France. The arbitrator(s) shall have no authority to award punitive damages, attorney fees, costs of the dispute, or any other amounts not measured by actual damages. The award of the arbitrator(s) will be final, binding and not appealable, and any court of competent jurisdiction may enforce the award. All statements and materials related to this dispute resolution process and arbitration are confidential and shall not be disclosed to any third party except as required by law. Any claim against Purchaser shall be barred unless Seller has made an arbitration claim in accordance with this Article within one year of the dispute arising (which shall be the effective date of termination if the dispute is related to termination).
- (b) The dispute resolution procedure in paragraphs 6(a) above is exclusive, except that (i) either Party may seek from a court of competent jurisdiction any equitable, interim, or provisional relief to avoid irreparable harm; and (ii) the Parties may bring litigation regarding claims related to a Party's Confidential Information or Intellectual Property.
- (c) Paragraph 6(a) above shall not be construed to modify or displace any termination rights contemplated by this Agreement.
- (d) Seller expressly acknowledges and agrees that, unless otherwise authorized by law, contract, or regulation: (a) its status as a party to this Agreement does not in any way equate to, or result in, Seller having privity of contract with the U.S. Government, and (b) this Agreement, or any Order issued under the Agreement, does not grant Seller any right to acquire any direct claim or direct course of action against the U.S. Government relating to this Agreement.

ARTICLE 7 - PURCHASER'S PROPERTY.

- (a) Purchaser shall retain ownership of Property that it pays for or provides to Seller and that is in Seller's possession ("Purchaser's Property").
- (b) Seller may use Purchaser's Property for the sole purpose of performing its obligations under this Agreement and not for any other purpose. For example, Seller shall not use Purchaser's Property to design, manufacture, sell, provide, or repair parts for anyone other than Purchaser, or to obtain FAA or any other governmental approval to do so. Nothing in this Agreement shall be interpreted as an implied license or a license by estoppel to Intellectual Property Rights in Purchaser's Property.
- (c) While Seller has Purchaser's Property in its custody or control, Seller shall plainly identify it, through markings or otherwise, as being the property of Purchaser (if practical), safely store it apart from other Property, hold it at Seller's risk, insure it for replacement cost with loss payable to Purchaser, and maintain it. Upon Purchaser's written request, Seller shall remove and deliver Purchaser's Property to Purchaser in the same condition as originally received by Seller, except for reasonable wear and tear.
- (d) Seller shall not (and shall not cause others to) reverse engineer Purchaser's Property or analyze it to determine its chemical composition or physical properties.
- (e) In any adjudication of whether Seller used Purchaser's Property without permission to design or manufacture for sale to anyone other than Purchaser or Purchaser's Affiliate any hardware that is substantially similar to or can replace or repair any Purchaser-designed product or system or any part for a GE, CFM International, or other engine program in which Purchaser participates, or to obtain FAA or other governmental approval for such hardware or repair, Seller shall be required to establish by clear and convincing evidence that Seller and its employees, sub-contractors, and agents did not do so (directly or indirectly).
- (f) Government Contracts. If Property under this Agreement is furnished or paid for under a government subcontract that includes ownership of Property by the government, the government shall retain ownership of such Property. By virtue of law, Seller has an irrevocable, fully paid up, perpetual license to use such Property for the purpose of fulfilling the government subcontract and Seller hereby grants to Purchaser an irrevocable, fully paid up, perpetual sublicense to use such Property with the right to further sublicense.
- (g) The most current version of GE Aviation Standard PO Remark E21 – Tooling Supplement shall apply to any Purchaser-owned tooling or US Government-owned property utilized in the performance of this Agreement.

ARTICLE 8 - INTELLECTUAL PROPERTY.

- (a) Background Intellectual Property
 - i) Intellectual Property developed or acquired by either Party before or outside the scope of this Agreement is considered Background Intellectual Property ("Background Intellectual Property").
 - ii) Nothing in this Agreement shall entitle a Party to ownership rights in any Background Intellectual Property of the other Party.
 - iii) Seller grants to Purchaser a non-exclusive, perpetual, irrevocable, fully paid-up, worldwide license to use, copy, and make derivative works of Seller's Background Intellectual Property and to disclose Seller's Background Intellectual Property to customers and users of Purchaser's products, Purchaser's partners or Affiliates, government agencies, and contractors in connection with the sale, test, qualification, certification, adaptation, modification, servicing, or repair of Goods and/or Services, including where such Goods and/or Services are incorporated into a higher tier assembly. The license granted herein shall supersede any restrictions stated in any Confidential Information Agreement and shall take precedence over any restrictive or proprietary markings contained on the face of any Goods and/or Services documentation and/or data deliverables pursuant to an Order. To the extent Purchaser discloses Seller Confidential Information under this paragraph, such disclosure will be subject to confidentiality terms consistent with those set forth in Article 9(c).
- (b) Foreground Intellectual Property
 - i) Intellectual Property developed by Seller when performing its obligations under this Agreement is considered Foreground Intellectual Property ("Foreground Intellectual Property").

- ii) Purchaser shall own all Foreground Intellectual Property along with any Intellectual Property Rights thereto. As required under the terms of an Order or at Purchaser's request, Seller shall deliver all such Foreground Intellectual Property to Purchaser.
 - iii) Seller hereby assigns and agrees to assign all rights in Foreground Intellectual Property to Purchaser. In addition, Seller, will provide reasonable, timely assistance to Purchaser (at Purchaser's expense) to enable Purchaser to secure Intellectual Property Rights in Foreground Intellectual Property.
 - iv) When an Order includes line items for Goods and/or Services or an adaption or improvement to existing Goods and/or Services, Intellectual Property relating to such line items shall be considered Foreground Intellectual Property unless Seller establishes by documented evidence that such Intellectual Property was developed wholly outside of the scope of this Agreement, and without use of Purchaser's funds, Purchaser's Property, and Purchaser's Background Intellectual Property.
 - v) All Foreground Intellectual Property that is considered "Work Made for Hire" as defined in in Section 101 of the United States Copyright Act, 17 U.S.C. 101, and used in 17 U.S.C. 201 (or relevant EU legislation and the UK Copyright, Design and Patents Act 1988, c. 48, as amended), shall be deemed a "work made for hire" under this Agreement, with all right, title and interest in such Foreground Intellectual Property vesting with Purchaser.
 - vi) Seller will procure from its employees and subcontractors at Seller's sole expense (including any compensation due Seller's employees), all Intellectual Property Rights in Foreground Intellectual Property. Further, Seller will secure from Seller's employees and subcontractors the execution of all patent applications, assignments, and other instruments necessary for procuring Intellectual Property Rights and vesting title in Foreground Intellectual Property for Purchaser.
- (c) Government Contracts. If the Goods or Services under this Agreement are being delivered pursuant to a government subcontract that includes retention of ownership of Foreground Intellectual Property by the Seller, provision (b) above shall not apply, and Seller shall retain ownership of such Foreground Intellectual Property ("Seller's Foreground Intellectual Property"). Seller hereby grants to Purchaser a perpetual, irrevocable, fully paid up, worldwide license to use, copy, and make derivative works of Seller's Foreground Intellectual Property, with the right to sublicense, and to disclose Seller's Foreground Intellectual Property to customers and users of Purchaser's products, Purchaser's partners or Affiliates, government agencies, and contractors in connection with the sale, test, qualification, certification, adaptation, modification, servicing, or repair of Goods and/or Services, including where such Goods and/or Services are incorporated into a higher tier assembly. Purchaser, Purchaser's customers, suppliers, partners, Affiliates, regulators, auditors, and inspectors shall not use Seller's Foreground Intellectual Property for the purposes of manufacturing the Goods and/or Services or procuring the Goods and/or Services from sources other than Seller, without Seller's written approval. The license granted in this Article 8(c) shall supersede use restrictions stated in any Nondisclosure Agreement, provided that to the extent Seller's Foreground Intellectual Property is considered Seller's Confidential Information, such Seller's Foreground Intellectual Property will be subject to the confidentiality terms of Article 9.
- (d) Patent Markings. If Purchaser notifies Seller that Goods ordered under this Agreement are patented, Seller agrees to mark such Goods with any patent numbers or other markings designated by Purchaser, including updates to such numbers or markings.
- (e) Intellectual Property Representations and Warranties. Seller represents and warrants:
- i) It is not the proprietor of any Intellectual Property Rights that would impair or restrict the freedom of Purchaser, Purchaser's Affiliates, and their respective vendors and customers to make use of the Goods and/or Services;
 - ii) Goods and/or Services shall not infringe any Intellectual Property Rights of any third party;
 - iii) Seller will not assert any Intellectual Property Rights against Purchaser, Purchaser's Affiliates, and their respective vendors and customers based on their use of the Goods and/or Services or their use, copying, and making derivative works of Seller's Background Intellectual Property; and

- iv) Seller will obtain the same warranties and commitment contained in this article running in favor of Purchaser, Purchaser's Affiliates, and their respective vendors and customers from each of Seller's subcontractors.

- (b) Seller shall not disclose Purchaser's Confidential Information to any third party or use Purchaser's Confidential Information for the benefit of anyone other than Purchaser without Purchaser's consent. All Purchaser's Property, Purchaser's Background Intellectual Property, Foreground Intellectual Property, and Orders shall be deemed Purchaser's Confidential Information.
- (c) Seller shall protect Purchaser's Confidential Information against unauthorized use or disclosure using at least those measures that it takes to protect its own Confidential Information of a similar nature, but no less than reasonable care. Seller will permit access to Purchaser's Confidential Information to only Seller's personnel who have a need to know for the purpose of performing Seller's obligations under this Agreement. If Seller is required by applicable law or regulation to disclose Purchaser's Confidential Information, Seller shall provide Purchaser with prompt notice thereof and a reasonable opportunity to comment or undertake protective measures prior to such disclosure. Seller may disclose only the information that is required by such law or regulation to be disclosed without liability under this Agreement.
- (d) Notwithstanding the restrictions in this Article, Seller may disclose Purchaser's tooling and tooling drawings to Seller's sub-contractors for the sole purpose of assisting Seller in performing its obligations under this Agreement, provided that Seller's sub-contractors agree in writing to obligations of confidentiality at least as restrictive as those set forth in this Agreement for Purchaser's benefit.
- (e) Seller shall be liable to Purchaser for any unauthorized use or disclosure by Seller's personnel or any third party to which Seller discloses Purchaser's Confidential Information.
- (f) Seller shall comply with the GE Privacy and Data Protection Appendix available at <https://www.gesupplier.com/ge-privacy-terms/> (the applicable version as of the time of the Order).

ARTICLE 10 - CHANGES.

- (a) Purchaser reserves the right at any time to make changes within the general scope of this Agreement. Such changes may include: (1) engineering definitions, drawings, designs or specifications; (2) technical clarifications; (3) artwork; (4) quantity; (5) method of shipment or packing; (6) quality requirements; (7) place or time of delivery; or (8) amount of Purchaser's furnished Property.
 - i) If any change causes a significant impact on the cost of, or the time required for, performance of any work under this Agreement, an equitable adjustment shall be made in the price or delivery schedule, or both as applicable, in writing. Any Seller claim for adjustment under this article shall be deemed waived unless asserted in writing within twenty (20) days after receipt by Seller of the notice to make the change and may only include reasonable, direct costs that will necessarily be incurred as a direct result of the change.
 - ii) Seller shall not proceed to implement any change for which Seller will seek an equitable adjustment until Purchaser provides for such change in writing.
 - iii) Nothing in this section, including any disagreement with Purchaser as to the equitable adjustment to be made, shall excuse Seller from proceeding with the change provided that Purchaser pays Seller all undisputed amounts pursuant to this Agreement.
- (b) With respect to anything subject to Significant Process Substantiation or S1005 requirements under Purchaser's applicable specifications, Seller shall notify Purchaser in writing 180 days in advance of any and all: (i) changes to the Goods and/or Services, their specifications and/or composition; (ii) process changes; (iii) plant and/or equipment/tooling changes or moves; (iv) transfer of any work hereunder to another site; and/or (v) sub-supplier changes, to permit Purchaser to identify any quality, regulatory or other reporting requirements that may arise from such change, including, but not limited to, FAR, DFARs, and FAA requirements, and no such change shall occur until Purchaser has had the opportunity to conduct such audits,

surveys and/or testing necessary to determine the impact of such change on the Goods and/or Services and has approved such change in writing. Seller shall be responsible for obtaining, completing, and submitting proper documentation regarding any and all changes, including complying with any written change procedures issued by Purchaser.

ARTICLE 11 - ANTICIPATION OF DELIVERY SCHEDULE. It is Seller's responsibility to comply with the established lead times and Due Dates but not to anticipate Purchaser's requirements. Any material commitments or production arrangements made by Seller in excess of the amount or in advance of the time necessary to meet schedules that are within lead time shall be at Seller's sole risk and expense. Seller shall not ship Goods to Purchaser in advance of Purchaser's requirements, and any such early shipment will not obligate Purchaser to pay and may be returned to Seller at Seller's expense.

ARTICLE 12 - ASSIGNMENT AND CHANGE IN OWNERSHIP.

- (a) Assignment. Any assignment or attempt to assign or subcontract Seller's obligations under this Agreement without the advance written consent of Purchaser shall be null and void and shall give Purchaser the right to terminate this Agreement for default.
- (b) Change in Ownership. If Seller solicits or receives an offer that would result in a Change in Ownership or Control, as defined below, Seller shall give notice of said offer and the identity of the offeror to Purchaser as early as practical following Seller's receipt of the offer. Before Seller accepts the offer or enters into definitive documentation with respect to a Change of Ownership or Control, it shall give Purchaser a reasonable opportunity to discuss the potential impact with Seller.

Seller shall immediately notify Purchaser if the Change in Ownership or Control occurs. Within one hundred twenty (120) days after receipt of such notice or the effective date of such Change in Ownership or Control, whichever is later, Purchaser may at its option:

- i) terminate all or any part of this Agreement as if for default under paragraph 5(a) above and at no cost to Purchaser; and/or
- ii) extend the duration of all or any part of this Agreement by up to thirty-six (36) months, with the same terms and conditions (including pricing).

In any event, Seller agrees to render full cooperation to Purchaser in order to minimize disruption to the Purchaser's program.

In addition to the rights above, Purchaser may require Seller to provide adequate assurance of performance, including, but not limited to (A) additional commitments from the new controlling entity, which may be in the form of a guarantee, and/or (B) the institution of special controls regarding the protection of Purchaser's Property, Purchaser's Background and Foreground Intellectual Property, and Confidential Information.

For purposes of this paragraph 12(b), the term "Change in Ownership or Control" means any of the following, in each case either directly or indirectly: (1) the sale of equity shares controlling 20% or more of the voting rights in Seller, an entity in Seller's line of ownership, or Seller's ultimate parent, (2) the sale, lease, transfer or other disposition of substantially all of the assets of Seller or Seller's ultimate parent, (3) a merger, reorganization, consolidation, share exchange, recapitalization, business combination, liquidation or dissolution or similar transaction involving Seller or Seller's ultimate parent, (4) a tender offer or exchange offer for any of the outstanding shares of capital stock of Seller or Seller's ultimate parent, (5) a sale by Seller of the assets relating to the product Seller produces or will produce for Purchaser, or (6) any public disclosure of a proposal or plan or intention to do any of the foregoing.

ARTICLE 13 - QUALITY ASSURANCE, INSPECTION AND TEST.

- (a) Seller shall be responsible for the specific quality, performance, productivity provisions, and documentation requirements, if any, set forth in this Agreement. In addition, Seller shall be responsible for imposing the applicable quality assurance requirements on its subcontractors. Purchaser and Purchaser's customer shall each have the right, at no charge to Purchaser or Purchaser's customer, to access the sites where the work under this Agreement is performed or to receive Seller data sufficient to (1) conduct quality audits, (2) perform or witness inspections or tests of the Goods or Services at Seller's facility or elsewhere, (3) assess conformance with Purchaser's specifications, (4) assess part performance, (5) assess conformance with Seller's other commitments under this Agreement, and (6) follow up on findings and improvements to resolve

any findings or issues and verify the implementation of the resolution(s). In accordance with 14 C.F.R. 145.223 and 14 C.F.R. 21.140, any Seller that agrees to provide Goods or Services that are regulated by the FAA, EASA, DAOS or other regulator, must provide facility access to that regulator for observation and inspection of information, items and processes related to those Goods or Services. If Purchaser is located in Brazil, Seller shall act also in accordance with rules of ABNT (Associação Brasileira de Normas Técnicas) and ANAC (Agência Nacional de Aviação Civil). For avoidance of doubt, Seller shall provide any drawings and/or other data needed to support regulatory requirements and regulatory authority audits within the period required by an applicable regulatory body. Notwithstanding other confidentiality restrictions, if any, Purchaser may disclose Seller's information to regulators and other government agencies in response to requests within the scope of said agencies' authority.

- (c) Actions listed in paragraph (a) above do not replace or waive any applicable rights of inspection, count, testing, acceptance or rejection. Payment does not constitute acceptance of Goods and/or Services and all payments against documents are made with a reservation of rights with respect to defects, whether apparent or not. The making of, or failure to make, any inspection or acceptance of the Goods or Services shall not impair Purchaser's right to reject nonconforming Goods or Services or receive any other remedies.
- (d) Seller certifies that it shall provide and maintain quality control, inspection, and process control systems in accordance with the most current specification revision located on Purchaser's document management system for supplier quality product requirements, as applicable (S-1000, S-1001, S-1002, S-1005, S-1007, S-485, NAK 3001 (when working with the GE Aviation Czech Business Unit), and other quality requirements as specified). For clarity, Purchaser's approval of Seller's process, quality and control processes does not release Seller from its responsibility to fulfill Purchaser's specifications and maintain such quality and process control systems. Seller will maintain objective evidence of its conformance with this paragraph, meaning that any statement of fact pertaining to the quality of a Good or Service must be based on observations, measurements or tests that can be fully verified. Said evidence must be expressed in terms of specific quality requirements or characteristics. These characteristics are identified in drawings, specifications, and other documents that describe the item, process, or procedure.

 - i) Seller warrants and certifies that Goods delivered pursuant to this Agreement are not and do not contain any Counterfeit Goods. Seller shall provide to Purchaser the OEM's certificate of conformance for any Goods acquired from an authorized OEM reseller or distributor. Seller shall not acquire Goods from independent distributors or brokers unless Purchaser authorizes it in writing.
 - ii) For all electrical, electronic, and electromechanical ("EEE") items included in Goods, Seller shall maintain a method that allows the tracing of the EEE items through the supply chain back to their initial manufacturer. This traceability method shall clearly identify the name and location of all of the intermediaries from the manufacturer to the Seller, and shall include the manufacturer's batch identification for the item(s) (for example, date codes, lot codes, or serializations). Upon Purchaser's

request, Seller shall provide OEM documentation that authenticates traceability of the EEE items to the applicable OEM.

- iii) Seller shall immediately notify Purchaser if it knows or suspects that it has provided Counterfeit Goods. (Additional requirements may apply under paragraph 13(g) below.)
 - iv) If Seller delivers Counterfeit Goods under this Agreement, Seller shall at its expense promptly replace them with genuine Goods. Seller shall be liable for all costs relating to the removal or replacement of Counterfeit Goods, including without limitation Purchaser's or Purchaser's customer's costs related to removing such Counterfeit Goods, inserting genuine Goods, and conducting any necessary tests. Purchaser reserves the right to turn over suspected Counterfeit Goods to US Governmental authorities (for example, the Office of Inspector General, Defense Criminal Investigative Service, or Federal Bureau of investigation) for investigation and reserves the right to withhold payment for the suspect Counterfeit Goods pending the results of the investigation.
 - v) This paragraph (f) applies in addition to any other quality provision, specification, or statement of work included in this Agreement addressing the authenticity of Goods and Services. To the extent such provisions conflict with this paragraph (f), this paragraph (f) prevails.
- (g) If applicable, Seller shall comply with the requirements in Federal Acquisition Regulation 52.246-26 to screen for and to report Counterfeit Goods, suspected Counterfeit Goods, major nonconformances, and critical nonconformances, and shall send to Purchaser all required notifications Seller makes to the U.S. Government under FAR 52.246-26. Purchaser may, when applicable, report to GIDEP and/or to Purchaser's customer any Counterfeit Goods, suspected Counterfeit Goods, major nonconformances, or critical nonconformances within the Goods or Services. Seller agrees that Purchaser shall not be subject to any liability to Seller for said reporting if Purchaser has a reasonable basis for doing so.
- (h) The remedies available under this Article are in addition to any other remedies Purchaser may have available to it in law or in equity, or in any other provisions of this Agreement.

quality system requirements. For the avoidance of doubt, for any nonconforming Good or Service, Seller shall only be charged per subsection (A) or (B) in this paragraph 14(b)(ii).

- iii) The Quality Administration Cost shall be charged to Seller automatically as a debit memo issued to Seller's account. For the avoidance of doubt, the Parties agree that the Quality Administration Cost is only intended to compensate Purchaser for its fuel and/or administrative costs and expenses and shall be without prejudice to Purchaser's right to recover other costs or expenses to which Purchaser is entitled, including but not limited to costs or expenses arising from field actions, such as removing parts from the field, unscheduled engine removals, teardowns, and retest, or other actual damages incurred.
